If You Are Not Smart, Come to Lakewood.

Lakewood is a good school. You can learn math, spelling, science, fluency, vocabulary, and much much more. Lakewood is big and blue.

Lakewood is only a place to learn, not to play around. We go to Lakewood to get a job. Math is sometimes tricky. My teacher said, "The spelling words you have on a test you should remember". Science is fun because you get to experiment with stuff. Vocabulary makes you smart. It gives you words to think with. If you read more and more you will be faster.

Lakewood is the biggest school I have ever seen. It's filled with the colors blue and white. There are lots of doors with different classes and people. There are alot of kids. Even big kids go to Lakewood. There are plants in front of our school.

Overall Lakewood is a fun and great school to learn. I like Lakewood That's why I go to Lakewood School.

Lakewood School
Grade 3

I like Lakewood school

I like Lakewood because it is fun.

My teacher is nice.

My class room is pretty.

Lakewood school is great.

Lakewood School is fun because you get to

play Double Dutch, and you get to play

tether ball too. You get to play on the

swings and play kick ball, basket ball

and ballie ball and foot ball and soccer

and base ball run laps as well.

My teacher is nice because she

lets us do art and lets us get free

time. When we have time to do homework

or some class work we don't finish or

some times she makes us do fluency or

you could do some math.

My class room is pretty because it is

decorated with lots of Halloween stuff and

wild life stuff. We made Halloween

faces for our regular faces on our reports

on the wall. We have a lot of stories to put

up in our folders. We all went wrote out

A
a lot of lakewood school so we can
be good cities for lakewood.

GET SMART AT LAKEWOOD SCHOOL

I like Lakewood school because I can get really smart. The teachers at Lakewood help me practice my reading, time-tables and my art. I was told that, practice make perfect. That's why I do my homework and work hard everyday. The teachers help students become better readers and writers.

I like Lakewood school because I have a very nice teacher and my teacher lets us do a lot of art on Fun Friday. Fun Friday is my favorite day because I can make anything that my teacher tell me to make. I like DJ, the yard duty teacher because he makes us laugh. I like this school because I can eat breakfast and lunch. I like all the teachers because they help all of the children. Lakewood School makes me proud to be from Lakewood.

What I Like About Lakewood

I like Lakewood because it helps me learn how to take my time like walking not running. It also helps me by learning how to sit correctly and not slopy. Sometimes it will help me visualize and draw conclusions, and ask questions. I will also learn by listening to instructions and reading every night and day. I like Lakewood School because I like to learn.

I like the staff at Lakewood School because DJ the staff sends me to the office when I'm sick. He keeps the playground equipment clean. I also like the staff Jordant because she gives people timeout if they are disrespectful. Sometimes in the morning I help her out by cleaning up the cafeteria.

I like Lakewood because they help me get my education and you get to go to ff and get a
